🌐 <https://www.tomruttle.com>

Technologist with particular interests in APIs, micro-services and containers. Certified Scrum Master. Mostly working with Node.js.

Experience

2012– **Developer, BMJ**, London.

Lead developer for BMJ Quality and BMJ Job Reviews API.

- Designed and wrote the bulk of a Node.js Hypermedia API supporting an Angular.js front-end. Product was first-to-market due to our choices of technology and agile methodology.
- Oversaw and managed the major refactoring of a large Drupal application: monolithic codebase was broken down into loosely-coupled modules.
- Investigated, prototyped, advocated, documented, and implemented a variety of DevOps tools. Now exclusively using Docker clusters for development work, have built tools for other developers, and am involved in the development of Puppet modules for Docker orchestration.
- "Voice of technology" on a steering committee. I have been assessing the requirements of customers (business team, end-users, and partners) and breaking them down into services.
- Current project is an XML document transformation/validation suite built in a functional reactive style in Node.js. It utilises the Seneca.js micro-services framework and has 99% Mocha test coverage.

2010–2012 **Drupal Product Consultant, Firmstep**, Cambridge.

Delivering highly customised Drupal 7 websites to customers in the public sector as part of an agile team.

- Devised and ran product training for groups of between two and twelve and all levels of IT experience.
- Wrote documentation for both internal and customer use
- Liaised between project management, customers, and developers

2005–2010 **Intern, Firmstep**, Cambridge.

Built e-forms for customers in the public sector; acted as consultant to customers for company products; tested new releases of company products; some first-line support

Education

2006–2010 **Master of Physics (MPHYS) in Physics with Philosophy**,
University of York, Grade: *2:1*.

2003–2005 **A-Levels in Computing, Maths, Economics, Physics**,
Hills Road Sixth Form College, Cambridge, Grades (respectively): *A, B, B, B*.

Extra-Curricular

Skydiving Participated in 42-way formations in Summer 2014.
